To whoever might concern:

I have worked with Raul Mariñez for some time and he has been instrumental in the making of my CGI feature "Extraordinary Tales"

I recommend Raúl for his amazing skills as animator and his very special commitment to the art form. Raúl is an imaginative artist who applies art and ideas to the service of the tools. He is an artist rather than a technician with the passion, the artistic skills and the creative drive to excel in his work.

From the point of view of a director, Raúl brings peace of mind, knowing that whatever the challenge is facing, he's going to come back with a creative solution.

From the point of view of a producer, Raúl is a skilled problem solver and someone to trust in any of the aspects of the production of an animated film.

Beyond his stint with R&R Communications in the making of Extraordinary Tales, Raúl has worked in the Goya award winner film "Cuerdas", and his work in that film brought my attention to his amazing skills as animator.

Therefore I truly recommend Raúl's skills as animator and as a key team player in any animation endeavor he might pursue in the future.

He will be a real asset to whoever request Raúl's talents in any creative position in the animation pipeline.

Yours Truly.

Raúl García.

CEO of R&R Communications, Director of "The Missing Lynx" and "Extraordinary Tales" and Executive Board Member of the Academy of Motion Pictures Arts and Sciences of Hollywood.
